

AI (loop powered) Isolated Barrier

NPEXA-CM31L

Single input, single output

NPEXA-CM3D11L

Double inputs, double outputs

Input: 4 ~ 20 mA

Output: 4 ~ 20 mA

Analog input isolated barrier, it provides transmitters with power in the hazardous area and transfers 4~20mA signals from a hazardous area to a safe area. The input and output is galvanically isolated from each other.
